Supplementary Career Information

- I am a first-generation academic with an international migration background. I completed degrees in English and acquired German language skills up to B2. Pandemic-related disruptions during undergraduate studies hindered my practice with research since my bachelor's thesis was cancelled by the university. I compensated it by taking part in remote research internships and continuous publications.
- **From July 2025 to August 2025**, I completed an intensive B2 German Language course at the *Deutsche Akademie*.
- **From March 2023 to June 2024**, I was engaged with different NGOs and youth organisations as a trainer and participant in non-violent communication and peacebuilding using non-formal education. The workshops and trainings were held in 9 different countries in Europe within *Erasmus+* and *Council of Europe* settings. This helped me to gain contextual understanding and gain real-world experience in working on projects and intercultural teams.
- **From February 2022 to September 2022,** I took part in a German Integration Course at the *BSB Erwachsenenbildung Bremen*, which led to B1 German and successful completion of the *Leben In Deutschland* orientation course.

Activities in the Research System

- **July 2026** – *A critical re-imagining of democracy: Postcolonialism in democratic practices in the age of the Anthropocene* – Selected for presentation in the conference, "DSA 2026: Reimagining development: power, agency, and futures in an uncertain world" in *University College Dublin, Ireland*. I also presented an abstract of this paper at

the conference, "Social Contracts and Democracy in Times of the Anthropocene: Thinking Beyond Crisis", at the *University of Applied Sciences, Fulda, Germany*.

- **February 2024 – Present** – Member of *Youth Peace Ambassadors Network (YPAN)*: Developed a toolkit for youth workers working with youth affected by war. Additionally, I developed a grant application for the development of practical tools for political advocacy and human rights promotion. The objective was to support BIPOC and migrant communities by deconstructing narratives of "us" vs "them".
- **May 2023 – February 2026** – Project Assistant at *planIMPACT – Verein für Menschenrechte, Frieden und Entwicklung e.V.*: Developing workshops for young people and youth workers on the topic of human rights education, positive peace, and peacebuilding.
- **January 2023 –** Conducted a semi-structured interview and completed a research report on the topic of access to healthcare and utilisation by immigrants in Bremen. The report concluded that language barriers and the experience of immigration were a big hindrance to access to healthcare in the studied case.
- **June 2022 –** Conducted a quantitative study as a part of a final examination to find out if a high GDP per capita would lead to a better attitude towards immigrants in 50 states in the United States. The dependent variable, or the attitude towards immigrants, was taken from the World Value Survey. It was done using R.
